

LANAP™ TREATMENT INFORMATION

PERIODONTICS

- You have a chronic, progressive infection, rotting your gums, destroying the bone around your teeth and likely damaging your life.
- We will endeavor to eliminate the infection and generate soft tissue reattachment through LANAP™ (Laser Assisted New Attachment Procedure).
- Scaling & Root planning is an option if the infection is not too advanced. It is less predictable in achieving the goal. (not effective >5mm)
- LANAP™ is 99% effective in eliminating active periodontal destruction.
- We treat all infected sites within a one-week time span.

A) Gum measuring probe indicates excessive gum pocket depth. B) Laser light removes bacteria and diseased tissue. C) Ultrasonic root cleaner and special hand instruments are used to remove root surface tarter ("lime deposits"). D) Laser finishes cleaning pocket and aids in sealing the pocket closed so new germs cannot enter. E) Attachment of gums to clean root surface occurs. F) Bite trauma is adjusted. G) Healing occurs.

FEES

- Periodontal Disease (Gum Disease or Pyorrhea) is a complete mouth disease, with localized areas needing more specific attention. Our fees are tailored to reflect your individual needs. It is not based on the number of teeth but on the care skill and judgment necessary to care for your condition as a whole.
- Treatment may be shared between the doctor and the hygienist.
- On average, the range for LANAP™ treatment is between \$950.00 and \$1495.00 per quadrant treated
- As a part of this regimen, for your success, an occlusal adjustment and perhaps extra-coronal splinting of the teeth is performed, and is non-negotiable. They carry their own fees and will be discussed on a case-by-case basis.
- In general the overall fee can range from approximately \$5999 to 7599 to save your teeth and perhaps your **LIFE**.
- Dr. Meyer is a general dentist, if you desire, you may see a periodontal specialist for traditional periodontal procedures. Dr. Meyer was the first Periolas Laser owner in the country in 1999 and formerly taught this technique to doctors from around the country.
